

PRESS RELEASE - For Immediate Release

COST OF LIVING INDEX

This report represents the eleventh edition of a new format for the Cost of Living Index. Beginning with the fourth quarter of 2007, C2ER has annually published an unweighted average of prices accumulated from the previous three quarters. The data presented represent average prices submitted for the first three quarters of 2017. For further details on the annual average methodology, please visit our website at coli.org.

Among the 269 urban areas that participated in the 2017 *Cost of Living Index*, the after-tax cost for a professional/managerial **standard of living ranged from more than twice the national average in New York (Manhattan), NY, to more than 20 percent below the national average in McAllen, TX.** The *Cost of Living Index* is published quarterly by C2ER – The Council for Community and Economic Research.

The Ten Most and Least Expensive Urban Areas in the Cost of Living Index (COLI)

Year-End Review of Three Quarters in 2017
National Average for 269 Urban Areas = 100

Most Expensive			Least Expensive		
Ranking	Urban Areas	COL Index	Ranking	Urban Areas	COL Index
1	New York (Manhattan) NY	238.6	1	McAllen TX	76.1

7	Oakland CA	149.5	7	Wichita Falls TX	81.7
8	Seattle WA	149.0	8	Knoxville TN	82.2
9	Boston MA	148.2	9	Hattiesburg MS	82.7
10	Los Angeles-Long Beach CA	148.0	10	Ashland OH	82.9

The *Cost of Living Index* measures regional differences in the cost of consumer goods and services, excluding taxes and non-consumer expenditures, for professional and managerial households in the top income quintile. It is based on more than 50,000 prices covering almost 60 different items for which prices are collected three times a year by chambers of commerce, economic development organizations, or university applied economic centers in each participating urban area. Small differences in the index numbers should not be interpreted as significant.

The composite index is based on six components – housing, utilities, grocery items, transportation, health care, and miscellaneous goods and services.

Since it is cold and flu season, which communities have the highest and lowest prices of orange juice and ibuprofen?

C2ER collects more than 50,000 prices from communities across the US for the COLI. Two of those items, orange juice and ibuprofen, are essential for those suffering from seasonal bouts of flu and colds. Below is a list of the most, and least, expensive places to buy those items.

The Five Most and Least Expensive Places to Buy Orange Juice Averaged over Three Quarters in 2017 Average for 269 Urban Areas in 2017 = \$3.53

Most Expensive			Least Expensive		
Ranking	Urban Areas	Price	Ranking	Urban Areas	Price
1	Honolulu HI	\$5.56	1	Chattanooga TN	\$2.86
2	Juneau AK	\$5.04	2	Cedar City UT	\$2.87
3	Kodiak AK	\$4.82	3	Kennewick-Richland-Pasco WA	\$2.87
